

POETRY.

FOREVER THINE.

In the range of English fugitive poetry, we have met with few places of deeper pathos or tenderness of feeling than this by Alaric Watts. It breathes the very soul of devoted affection.

Forever thine, whate'er this heart betide,
Forever mine, whate'er our lot be cast—
Fate, that may rob us of all wealth beside,
Shall leave us love till life itself be past.

The world may wrong us—we will brave its hate;
False friends may change & false hopes decline;
Though bowed by carking care, we'll smile at fate
Since thou art mine, beloved, and I am thine!

Forever thine—when circling years have spread
Time's snowy blossoms o'er thy placid brow;
When youth's rich glow, its purple light is fled,
And lilies bloom where roses flourish now—

Say shall I love the fading beauty less,
Whose spring tide radiance has been wholly mine;
No! come what will, thy steadfast truth I'll bless,
In youth, in age, thine own, forever thine!

Thine, in evening's dewy hour,
Thine, in morning's earliest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—
Thine, in the heart's softest hour,
Thine, in the heart's softest gleam—

ing ocean, and the starry firmament that arches over all with its mystery of sun, moon, and twinkling stars.

And is not the Sabbath then a blessing to man? And is he not mad with worse than a maniac's insanity, when he passes by the hallowed day without partaking of its divine influences? Can his labor be sweet in the coming week? Can his mind have gathered back from a thousand trials and perplexities, its serenity, its quick and systematic action? We fear not. And week after week will his moral perceptions grow more obtuse—and his sensual feelings stronger; and he will soon add another to those who are even now imparting the leaven of their unholy influence to every portion of society.—*Baltimore Monitor.*

THE CHILD OF MERCY.
FROM THE GERMAN OF HERDER.

When the Almighty would create Mankind,
He called his chief angels to counsel around Him.

"Create him not!" said the angel of Justice;
"he will be unjust towards his brethren, and with those that are weak will be deal harshly and cruelly."

"Create him not!" said the angel of Peace; "he will drench the earth with human blood, and the first born of his race will become a fratricide."

"Create him not!" said the angel of Mercy; "he will drench the earth with human blood, and the first born of his race will become a fratricide."

"He will profane Thy Holiness with false-hoods," exclaimed the angel of Truth, "even though Thou shouldst stamp thine own image—the seal of truth—upon his forehead."

While they were yet speaking, Mercy, the youngest—the dearest child of the Eternal Father, approached His throne, and clasped his knees; "Create him," cried she, "create him, Father, in image of Thyself—a cherished object thy goodness. When all thy servants have forsaken him, then will I seek him, and will stand fondly by him, and will turn even his faults to good. His frail heart will I fill with compassion, and will incline it to commiserate the weaker. When he wanders from Peace & Truth—when he offends against Justice and Equity, then shall even the consequences of his error lead him back chastened and improved."

The Father of the human race created Man a frail and erring creature; but even in his fault a favorite of His goodness—a son of Mercy—a son of that Love which can never forsake him, but which ever seeks to make him better.

Remember thy origin, oh Man! when thou art cruel and unjust. Of all the divine attributes, Mercy alone choose to call thee into being, and bath through life extended to thee only the love and compassion of the maternal breast.

THE FATHER OF THE HUMAN RACE created Man a frail and erring creature; but even in his fault a favorite of His goodness—a son of Mercy—a son of that Love which can never forsake him, but which ever seeks to make him better.

WHO WANTS BETTER EVIDENCE?—I would refer the reading public to the numerous voluntary letters published recently in this paper and in the Good Samaritan relative to the happy and beneficial effects of the administration of MOFFAT'S LIFE PILLS AND PHENIX BITTERS.

Those who have perused the letters above referred to will observe that in almost every case they attest the fact, that no inconvenience of any sort attends the taking of these medicines, in ordinary cases, but that the patient, without feeling their operator, is universally left in a stronger and better state of health than was experienced previous to being afflicted with disease; and in all cases of acute suffering great relief is obtained in a few hours, and a cure is generally effected in two or three days.

In cases of fever of every description, and all bilious complaints, it is unnecessary for me to say aught, as I believe the LIFE MEDICINES are now universally admitted to be the most speedy & effectual cure extant in all diseases of that class.

The life medicines are also an excellent relief in affections of the liver and bowels, as has been proved in hundreds of cases where patients have come forward and requested that their experience in taking might be published for the benefit of others. In their opinion in such cases, they restore the tone of the stomach, strengthen the digestive organs and invigorate the general functions of the whole body, and thus become to both sexes (for they are perfectly adapted to each) an invaluable means of preventing disease and restoring health.

In affections of the head, whether accompanied with pain or giddiness, or marked by the previous existence of impaired mental energy; in prostration of the heart, flatulence, loss of appetite and strength and the multiplied symptoms of disordered digestion, the life medicines will be found to possess the most salutary efficacy.

Constitutions weak and decayed, in men or women, as under the immediate influence of the Life Medicines. Old coughs, asthma, and consumptive habits are soon relieved and speedily cured. Poverty of blood, and emaciated limbs will be long lost the happiest change, and the limbs be covered with flesh firm and healthy.

Nervous disorders of every kind, and from whatever cause arising, fly before the effects of the life medicines, and all that train of sinking anxiety, and tremors which so dreadfully affect the weak, the sedentary, and the delicate will in a short time be succeeded by cheerfulness, and every passage of health.

For weakness, deficiency of natural strength and relaxation of the vessels, by too frequent indulgence of the passions, the medicine is a safe, certain, and invaluable remedy.

Those who have long resided in hot climates, or are languid and relaxed in their whole system, may take the Life Medicines with the happiest effect, and persons removing to the Southern States of West Indies cannot store a more important article of health and life.

The following cases are among the most recent cures effected, and gratefully acknowledged by the persons benefited.

Case of Jacob C. Hunt, New Windsor, Orange County, N. Y.—A dreadful tumor destroyed nearly the whole of his face, nose and jaw. Experienced quick relief, by use of the life medicines, and in less than three months was entirely cured.

Case of Thomas Purcell, senior, 84 years of age—was afflicted 18 years with swellings in his legs—was entirely cured by taking 42 pills in three weeks.

Case of Joan Daulton, Abbeville, Ohio—Rheumatism five years, entirely cured—has used the Life Medicines for Worms in children and found them a sovereign remedy.

Case of Lewis Austin—periodical sick headache—always relieved by a small dose—now entirely free from it.

Case of Mr. Adon Ames—cured of a most inveterate and obstinate dyspepsia and general debility.

Case of Adah Adams, Windsor, Ohio—rheumatism, gravel, liver affection, and general nervous debility, had been confined seven years—was cured from her bed by taking one box of pill and a bottle of bitters, a most extraordinary cure—she is now a very healthy and robust woman—attested by her husband Shubal Adams.

Case of Mrs. Badger, wife of Joseph Badger—nearly similar to the above—result very near the same.

Case of Susan Goodenart, a young unmarried woman—subject to ill health several years—a small course of the life medicine entirely restored her to health and health.

Case of Miss Thomas, daughter of Mr. Eli Thomas—cough and symptoms of consumption—cured in four weeks. Her sister cured of a severe attack of inflammatory rheumatism in one week.

Case of S. Colvin—cured of a severe attack of Scarlet Fever in a few days by the Life Medicines.

Case of Harriet Twogood, Selina, N. Y.—was in a very low state of health a year and a half—did not expect to recover. Miss T. is now able to walk about and is rapidly recovering both health and strength.

Case of B. J. Tucker, severe case of fever and ague—cured in a very short space of time. Directions followed strictly.

Case of Amos Davis—Affection of the liver—after trying doctor's remedies in vain for a long time, was cured by the Life Medicines without trouble.

Extraordinary case of Lyman Pratt, who was afflicted with Phthisis twenty years; effected a perfect cure in 24 hours by the use of the Life Medicines.

Thousands of persons afflicted in a like manner, by a judicious use of Moffat's Life Pills and Phenix Bitters, have been restored to the enjoyment of all the comforts of life. The Bitters are pleasant to the taste and smell, gently astringe the fibres of the stomach, and give that tenacity which the digestion requires. As nothing can be better adapted to help and nourish the constitution, so there is nothing more generally acknowledged to be peculiarly efficacious in all inward wastings, loss of appetite, indigestion, depression of spirits, trembling or shaking of the hands and limbs, obstinate coughs, and shortness of breath, or consumptive habits.

The Life Medicines possess wonderful efficacy in all nervous disorders, fits, headaches, weakness, heaviness, and lowness of spirits, dimness of sight, confused thoughts, wandering of the mind, vapours and melancholy, and all kinds of hysterical complaints are gradually removed by their use. In sickness of the stomach, flatulencies, or obstructions of the bowels, they are safe and powerful and as a purifier of the blood, they have not their equal in the world.

For additional particulars of the above medicines see Moffat's 'Good Samaritan,' a copy of which accompanies the medicine; a copy can always be obtained of the different agents who have the medicine for sale.

French, German, and Spanish directions can be obtained on application at the office, 375 Broadway.

All post paid letters will receive immediate attention.

Prepared and sold by WILLIAM B. MOFFAT, 375 Broadway, New York. A liberal deduction made to those who purchase to sell again.

AGENTS—The Life Medicines may also be had of any of the principal Druggists in every town, throughout the United States and the Canadas. Ask for Moffat's Life Pills and Phenix Bitters, and be sure that a fac simile of John Moffat's signature is upon the label of each bottle of Bitters or box of Pills.

STATE OF VERMONT.
ORLEANS DISTRICT ss.

The Probate Court for the District of Orleans to all persons to whom these presents shall come.

GREETING.
LUCY B. RUGGLES, of Morgan, in said District, Guardian of Abigail B. Arvilla, and U. N. Ruggles, infants under the age of twenty years, minor heirs of Nathaniel Ruggles, late of Morgan, aforesaid, deceased, having represented to this Court that her said Wards are possessed of real estate in their own right in fee, situated in Morgan in the County of Orleans, described as follows, viz: Lot No. 2 in the third range, Lot No. 3 in the second range, and the Northwest half of Lot No. 2 in the second range, estimated to contain one hundred acres with a barn and an unfinished house thereon. Also Lot No. 5 in the first range, known as the Davis Lot, estimated to contain forty acres. Also the South westerly half of Lot No. 2 in the fourth range, estimated to contain twenty acres, said real estate being the joint property of said minors subject to the life estate of the Widow in one third thereof. The said Guardian represents to this Court that a sale of said estate is necessary for the maintenance and support and conducive to the interest of said wards and prays that license be granted to her to sell all the interest of her said wards in said estate.

Therefore it is ordered, that said application stand for hearing before said Court, at a session thereof to be held at the Probate Office in Irasburgh on the second Wednesday of March next, and that notice thereof be given by publishing this order embracing the substance of said petition in the *Calcedonian*, printed at St. Johnsbury, two weeks successively, the last of said publication to be not less than two weeks previous to said day.

Given under my hand and the seal of said Court this 7 day of February, A. D. 1840.

GEO. NYE, Judge.

By the British Queen,
WHICH arrived in New York Nov. 23d, we received an interesting letter from Mr. J. Morrison written at the British College of Health, London, where the medicine of which we speak is made. Mr Morrison thinks that the reason that many in this country are so long in being cured of old seated Diseases, is that they do not take large doses enough, and who is a better judge than he who has for years made and administered the medicine and observed its effects. We believe this reason, the true one. In cases of *Typus Febris*, *bilious Complaints*, *Cholera Morbus*, *Consumption*, *Rheumatism*, particularly

INFLAMMATORY RHEUMATISM, Dropsy, Small Pox, The Douleureux, FEVERS OF ALL KINDS,

and in many other diseases, in their worst stages there should be doses of 10, 15, 20, 30 and even more Pills administered at 2 DOSE. It is done with great success all over Europe, and there is where the medicine is most successful. We conversed with a gentleman in this town, in August last, it was Mr. John Morrison son of Mr. James Morrison, the Hygeist, who spent a day or two here, whilst on his travels through the states; he informed us that he was once prostrated by a fever, we think he said Typhus Fever, (the name matters not) and was pronounced by Friends and physicians 'near his end,' 'past recovery.' His father dismissed the physicians and said, 'I think I can save him,' and commenced with (30) thirty No. 2 Pills, these did not have the desired effect, and he gave him doses of sixty No. 2 Pills and continued these doses for several days until he was out of danger. Violent diseases require large doses. Large doses, in season will prevent a long sickness.

Mr. Lemuel Curtis, known by all in this town & vicinity, was laid up with *Inflammatory Rheumatism*, had to be lifted into and out of bed; his limbs were swollen very large, his pains were very acute, he had been trying various things without relief; by the persuasion of Mrs. C. Johnson, against his wishes, he went to us for a \$1 package of Morrisons Medicines and by them was cured. We had this information from Mr. Curtis he is here and can be enquired of concerning it. Mrs. Johnson, known to most of the inhabitants of Burlington, was laid up with the same disease, *Inflammatory Rheumatism* and could get no relief, she sent to us for a package of Morrisons Medicine, and says 'when I had taken the fifth dose the swellings and the pains began to leave me, and those only who have had this disease, can realize the happiness of

ABSENT PAIN.

Morrison's Pill cured Mrs. Johnson.

We often think we never will publish another word about Medicine, but situated as we are, where we have incontestable evidence of the intrinsic worth of Morrison's Pills and see that they cure very many, who in all human probability, would otherwise die soon, or drag out a miserable existence, we will speak—we will write—we will let the sick know where they can get a good thorough tried vegetable medicine, which cure it persevered in, and used aright; we call upon Hygeists to renew their interest to take agencies if they are needed in their vicinity, to circulate the pamphlets, Books and Medicines. 'Truth is mighty and will prevail.' EXPERIENCE has established Hygeism. Many through ignorance, and prejudice neglect to use this Medicine; when had they used it would have been doubly blessed. PANGBORN & BRINSMAID, Jewelers, Burlington, Vt.

Every Packet sold in Vermont will be signed in WRITING by Pangborn & Brinsmaid, Jewelers, of Burlington, Vt. who are State Agents, and also by the Sub-Agents selling them. IF they are NOT so signed DO NOT BUY THEM. Packets of Pills are \$1 and \$3 each. Powders, 25 cts. per box. For sale by

JONAS FLINT, St. Johnsbury.
John Kelsey, Danville.
Wm. Pierce, Lyndon.
S. E. Morse and Simeon Lyman, Craftsbury.
Sabin Kellum, Irasburgh.

Fall and Winter Fashions.
JOHN H. WESTROPP

WOULD remind the citizens of Danville and vicinity that he still occupies his old stand over A. McMillan's Store; where he is prepared to make all kinds of Gentlemen's garments according to the

LATEST FALL AND WINTER FASHIONS JUST RECEIVED FROM BOSTON NEW YORK AND PHILADELPHIA.

And he would embrace this opportunity to say (with many thanks to his former customers,) that in view of the increase of patronage with which he has been favored the past season, he considers any 'bombastical boast, or racking of the brain for new inventions' wholly uncalculated, believing as he does that experience gives a Tailor the most successful 'rule' by which to measure man.

In addition to experienced Seamstresses the Subscriber has in his employ a first-rate workman, formerly from England, who has a number of good rules in his head ready for application as circumstances may require.

By Express done to order, and all garments made by him, warranted to fit.

Danville, Oct. 17, 1839.

117—tf

Shawls! Shawls!
MERINO SHAWLS as good as have been heretofore sold at 7 and 8—(we bought them at auction) for sale at \$4.50. Also a large lot of Highland and Edinburg Shawls—very cheap.

For sale by SHEDD & JEWETT, Oct. 1839.

New and important Discovery.
DR. PHELPS' COMPOUND
TOMATO PILLS,
ENTIRELY VEGETABLE.

A new and invaluable medicine for all diseases arising from impurities of the blood, morbid secretions of the Liver and Stomach, also a substitute for Calomel; as a cathartic in fevers and bilious affections.

THESE popular Pills being a combination of a newly discovered alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best alternative and cathartic medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for scrofula, dyspepsia, jaundice, bilious diseases, gravel, rheumatism, coughs, colds, influenza, catarrh, nervous diseases, acid stomachs, glandular swellings of all kinds, costiveness, cholera, headaches, &c.

They are an antidote to contagious and epidemic diseases; prevent the formation of bilious and liver affections, fever and ague, &c., in those who reside in hot climates, and low and marshy countries, are the best cathartic that can be used for those localities. Seamen will find them an infallible remedy for the scurvy; and travelers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates. For ordinary FAMILY PHYSIC, they are universally approved as the best ever offered.

As a DITETIC or DINNER Pill, one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and invigorated action, and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immoderately in desserts of fruit.

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the medical profession and the public; and a lively interest has recently been directed to the future development of its active powers, and its antibilious and alterative qualities;—which the proprietor is now happy in being able to gratify—and presents his pills to the public, with the full confidence of their being the most safe, and valuable remedy ever discovered;—adapted to all cases, where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several physicians, who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for them, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the proprietor was induced by the hope, that a medicine prepared with much care, and strict regard to the chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the day, with which the country is deluged—and from the favor already bestowed upon it by physicians and others, he feels justified in expecting this result.

For a full account of this interesting discovery, testimonials, mode of operations, &c, see pamphlets, which may be had gratis of all who sell these pills.

None are genuine without the written signature of G. R. PHELPS M. D., sole proprietor, Hartford, Conn.

CAUTION. The unprecedented popularity of these pills has induced several persons to prefix the name of 'Tomato Pills' to their various preparations, evidently with the intention of deceiving those enquiring for Phelps's Tomato Pills. The public cannot be too cautious to avoid all these anomalous 'Tomato Pills,' and 'extracts of Tomato,' nor too particular to observe that the original and only genuine compound Tomato Pills, are signed by the proprietor, G. R. PHELPS, M. D. Hartford, Conn.

For sale by Dr. LUTHER JEWETT, St. Johnsbury, Vt. And also, by G. W. BARKER, and SILAS BURBANK, Jr. Montpelier, Vt. General Agents.
